ENGLISH BEAM BED

Bed Frames

Epic natural beauty, created with aged reclaimed timber. The English Beam bed is made using old wood up to a century-old, salvaged from the structural beams and pillar joists of buildings across the UK. The arduous process of reclamation starts at a demolition site, where precious sections are recovered. The timbers are sorted and de-nailed by hand, all the while preserving the natural surface, revived to once again support new lifestyles. Not available in the US.

SPECIFICATION

Product Code:	N-ENG-BD-0002-Z
Product Height:	28cm / 11"
Product Width:	341cm / 134"
Product Depth:	296cm / 117"
Weight:	404kg / 891lbs
Frame	English reclaimed
Construction:	timber
Bulb Included:	No
