## BASTILLE CHAIR

### Armchairs

Incarcerated in style, the Bastille chair is wrapped around the outside in brass studded Pixel leather, conveying a strong, protective look. The interior seat and rounded back are smooth, soft and luxuriously inviting in Safari leather, carefully sanded by hand to achieve a suede-like effect that is incredibly tactile. The natural marks and characteristics of the hide are brought to the surface of the leather for a natural, distressed look that will continue to age over time. Brass feet complete the elegant ensemble.
