PUNK PROFESSOR CHAIR

Armchairs

The classic Professor chair unveils its latest alter ego: the retro Punk Professor chair. Dressed in rugged Safari Black leather with a silver studded back, the Punk Professor revives the spirit of 70s rock and roll when a new wave of punk rock bands crashed into the London music scene. Compact enough for any corner but with enough personality to be the main attraction, the Punk Professor is also available with a Safari Black leather footstool, so you can put your feet up, and your music on.
