ARNO COFFEE TABLE - MARBLE WHITE SATIN

Coffee Tables

An ode to Italian postmodernism from the late 1970s, a period of rebellious design which often presented in playful shapes. Arno's curvaceous form takes its inspiration from the simple pebble, a rock that has been washed around rivers and oceans for thousands of years until it becomes worn and smooth. That same concept informs Arno's name, references Florence's famous river. Handcrafted in a choice of white marble from Italy or natural black slate.
