ENGLISH BEAM CONSOLE

Console Tables

Epic natural beauty, created with aged reclaimed timber. The English Beam console is made using old wood up to a century-old, salvaged from the structural beams and pillar joists of buildings across the UK. The arduous process of reclamation starts at a demolition site, where precious sections are recovered. The timbers are sorted and de-nailed by hand, all the while preserving the natural surface, revived to once again support new lifestyles.

SPECIFICATION

Product Code:	N-ENG-TC-0002-Z
Product Height:	76cm / 30"
Product Width:	200cm / 79"
Product Depth:	40cm / 16"
Weight:	140kg / 309lbs
Bulb Included:	No
