LIGHT WHEEL SMALL PENDANT

Ceiling Lights

Handcrafted from shimmering prisms of K9 optical glass, the Light Wheel pendant is a unique play on industrial chic. From directly below looking up, the pendant is shaped like a bicycle wheel, with each prism of the wheel held in place by the metal spokes. The triangular prisms have been smoked on one side, making the lightbulb behind it disappear in an optical illusion, creating a series of magical moments where the prisms continue to shine and sparkle of their own accord.
