ARC SOFA

Sofas

The Arc collection is one that has incorporated lighting as one of its main features. The collection was inspired by that high voltage point striking the arc and releasing a massive energy and glow during flash welding, a glow often seen in workshops fabricating parts for cars, bikes, or other machines. Then imagine capturing that flash, and have it become a continuous controllable glow within your sofa, mirror, tables, or pendant. The 3 seater Arc sofa is covered in Road Racer Carbon leather.
