

TIMOTHY OULTON

CORE PENDANT

Ceiling Lights

Inspired by the technique of turned wood, a classic rounded shape is catapulted into the modern era with the use of an innovative, contemporary material. Carbonstone is created from recycled quartz pieces, transformed into a solid crystallised stone in a technically complex reaction involving heat and carbon. The translucent stone gives the Core pendant its unique, natural feel while retaining an air of vintage. A small sized pendant, with a visible antique bulb at its centre.
