AVIATOR BLACKHAWK VALKYRIE

Desks

The vanguard of desks. The aerodynamic shape of the Aviator Blackhawk Valkyrie desk is inspired by the North American Aviation XB-70 Valkyrie; the strategic bomber prototype used for supersonic test flights in the 1960s. The desk is clad entirely in our signature Spitfire finish in homage to one of the greatest fighter planes ever built; the British Supermarine Spitfire. Mimicking the plane's riveted exterior, aluminium panels are painstakingly shaped and then fixed by hand-applied nails. A five-stage finishing process creates the impression of worn, distressed metal. Please note, the Spitfire finish features surface distress variations, which may vary from piece to piece.

SPECIFICATION

Product Code:	T-AVI-TK-0003-Z
Product Height:	76cm / 30"
Product Width:	196cm / 77"
Product Depth:	101cm / 40"
Weight:	84kg / 184lbs
Bulb Included:	No
