## AXEL MK3

The Axel mirror crosses old world and industrial with its combination of reclaimed boat wood from decommissioned Chinese junks and hand-treated metal detailing. The reclaimed boat wood is painstakingly reclaimed, with 400 nails removed from the timber to make just one Axel mirror. Each piece is different, as the finish accentuates uniquely weathered colourations and textures resulting from decades of exposure to the high seas and elements.

The latest incarnation of our signature Axel collection is smoother and more evenly finished, still with just as much character as our previous versions.
