## ODEON

The Odeon lighting collection is a modern day interpretation of Venetian glass prism chandeliers from the 1960s. These glamorous handcrafted mid-century modern lights are inspired by one of the greatest Roman architectural feats: the infamous elliptical Coliseum Amphitheatre. The fixtures have superior light dispersion capabilities due to the generous quantity of crystals drops – the large pendant has over 380 optical graded glass prisms. These opulent crystals are daringly contrasted with natural unfinished iron, pitting the raw masculinity of the finish which bears the marks of the welder's torch against the dazzling femininity of the crystal. These beautiful pieces have been interpreted into many different functional lighting fixtures including floor lamps, table lamps, pendants and flushmounts.
