## REX

Swirl your senses with Timothy Oulton's Rex collection, a dramatic range of lighting, mirrors and furniture that captures the romance of 1920s Paris. Each unique piece is handcrafted from prismatic baguettes made from optical glass, refracting the light in a perpetual dance of shimmer and sparkle. Strongly directed by Art Deco influences, the Rex collection is evocative of a bygone era, a period of excitement and glamour. Juxtaposing a raw, welded iron frame with the sparkle of crystals, the collection captures the romance of the past but infuses it with a fresh viewpoint for a thoroughly modern take on glamour.

Standing at a statuesque 2.4m high, the Rex tall mirror is handcrafted from 361 backlit triangular prisms, softly diffusing the light for endlessly shifting sparkle. Also available as a round mirror.
