ELYSIUM SCONCE

Painstakingly crafted by hand into a halo of rock crystal, the Elysium ball pendants are individually selected crystals sourced from the earth. Rock crystal is the rarest form of quartz, which has been imbued with mystical properties since ancient times. Taking millions of years to form under the earth's surface, it is pure natural beauty. The Japanese referred to this beautiful material as "breath of the dragon", while the Australian aborigines revered it as "frozen rain". And rock crystal exhibits a unique piezo electric effect, accumulating an electric charge when subjected to pressure. This crystalline energy is truly exotic.

For the Elysium, each piece is found and lightly polished by hand. These natural crystals reflect and refract light between themselves creating dramatic shadows and radiating a soft natural glow.

DIMENSIONS (inches / cm):

L	W	H
15.7" / 40	7.1" / 18	15.7" / 40

FINISHES :

ROCK CRYSTAL & PLATED BRONZE
