HELLCAT CHAIR

The Hellcat chair is a new interpretation of our original Tomcat chair, but whereas the Tomcat's inspiration came from fighter planes, Hellcat draws influence from the automotive and motorcycling world. The arms are constructed in stainless steel and finished in a raw matt steel coating, with the weld marks revealed to showcase its intricate craftsmanship, inspired by hot rod cars and choppers. The seat and armrest of the Hellcat is upholstered in distressed perforated leather, simulating the worn leathers of the steering wheel and seat of well used hot rods and choppers.
