JUNCTION COFFEE TABLE

Coffee Tables

Bring a touch of glamour to your outside entertaining space with the Junction Marble coffee table. Smooth, uninterrupted planes of luminous white marble catch the sunlight beautifully and bring a sense of calm and refinement to the wild outdoors. Marble's naturally porous surface will develop its own patina with use and wear, etched with its own story over time. Best suited to covered areas outside with some protection from the elements, or looks beautiful indoors in your living room.
