## GLACIER DINING TABLE

### Dining Tables

Like a primeval volcanic eruption frozen in time, the Glacier dining table spectacularly freezes logs of burnt timber in crystalline acrylic. The ice cold smooth appearance contrasts with the charred remains of the rugged timber, like mixing fire and ice. The dining table features four beams of timber encased in acrylic, set atop two large timbers also in acrylic. The spectacular bubbling finish is uniquely different on each piece. Relaxed and casual dining, perfect for storytelling around the table.
