

TIMOTHY OULTON

CHAMPAGNE KINETIC

Wall Art

Seductively hypnotic, the Champagne Kinetic wall sculpture mesmerizes the senses with its perpetual motion, holding you captive in the moment. A design collaboration between Tim Oulton and kinetic artist Didier Legros, this unique piece of live art features coloured marbles charged with kinetic energy, moving in a carefully choreographed dance around a champagne bottle.

Wrapped in a handcrafted stainless steel frame in matt black finish, Champagne Kinetic is illuminated by LEDs to further elevate the drama. The front features two latches to allow the glass door to open, enabling intrigued viewers to take a closer look at the beautifully intricate construction. Available with UK or US wiring only.
