REV BOOKCASE

Bookcases

The Rev bookcase is inspired by the machine elements of the motorcycling and automotive world, displaying the contrast between the refined and the raw power they possess. The refinement comes from the intricacy and precision of thousands of moving components, synchronised in perfect harmony in a finely orchestrated composition, that then produces the aggressive rumble and raw power which leaves a trail of burnt rubber and a smell of ignited oil in its aftermath. This is the feeling portrayed by the Rev collection, with the giant gears and concentric ring configurations embodying the movement of machine parts. The raw steel in a matt finish coupled with exposed weld marks reflects the authentic craftsmanship in each piece's fabrication. And finally, the cherry on top is the safety ignition switch often found in race cars, used here as the on/off switch for the light.

SPECIFICATION

Product Code:	M-RVM-OB-0001-A
Product Height:	188cm / 74"
Product Width:	182cm / 72"
Product Depth:	42cm / 17"
Weight:	130kg / 287lbs
Max Wattage:	28W
No. of Bulbs:	LED
Bulb Included:	Yes
Dimmable:	No
