

TIMOTHY OULTON

CITADEL DESK LOS ANGELES

Desks

The limited edition Citadel desk means business. The marble top features a choice of city maps inlaid in cool and contemporary stainless steel, and polished to achieve a smooth, flush surface. The marble floats above a classic A-frame base in crystal clear acrylic, with its angular geometry radiating an architectural aesthetic. A conversational piece for the living room or an energizing piece for your workspace, Citadel is a piece of art in itself, inspiring the imagination and infusing the whole room with a sense of drama. Available as a map of L.A., London or New York.
