FLARE SIDE TABLE

Side Tables

Flare's mystical aura draws you in with powerful force. Hand-selected wands of selenite crystal are delicately arranged piece by piece, trapped within perfectly transparent acrylic like a precious museum artefact. Each composition is highly technical to create and completely one-of-a-kind. Named after the Greek goddess of the moon, selenite is known for its soft pearlescent glow similar to moonlight, lending the Flare side table its beautiful luminous shimmer. A special and unique design, translating art into a functional furniture piece.
