## BOLT LEATHER BARSTOOL

### Barstools

The Bolt stool with leather seat embodies the absolute precision which is present in every part of a motorcycle, even the smallest parts. Massimo Tamburini, arguably the most famous motorcycle designer of all time, once spent 60,000 hours designing a single motorcycle, where he personally designed every part - even down to the bolts. The Bolt collection is a tribute to the genius of the late Tamburini, taking one of the smallest and often least appreciated parts of a motorcycle and amplifying it in the form of swivel stools and barstools.
