

# TIMOTHY OULTON

## SAINT TROPEZ

### Wall Art

A fun and cheeky piece of wall art, in a nod to the famous nudist beaches of Saint Tropez, where one could disrobe, destress and soak up the warm rays of the Mediterranean sun. The design is painted by hand onto an old salvaged door, with all the bolt holes kept in and the weathered character preserved, as testament to its rich provenance. A rugged, distressed finish gives this piece a very vintage feel.
